PROJECTS

Go Trip – Travel Website (HTML & CSS)

📅 04/2024

Developed a responsive travel website called "Go Trip" using HTML and CSS, featuring a visually appealing layout to showcase destinations, tour packages, and contact details. The website includes intuitive navigation, optimized images, and a mobile-friendly design using media queries and Flexbox/Grid for layout structure. Focused on user experience and performance to create an engaging and informative platform for travel enthusiasts.

Fitness Club Web Design (HTML, CSS, JavaScript)

📅 02/2024

Developed a fully responsive gym website using HTML, CSS, and JavaScript, optimized for both desktop and mobile devices. The site features modern UI design, smooth navigation, and interactive elements to enhance user experience. Implemented responsive layout techniques using media queries and flexbox/grid to ensure seamless performance across screen sizes. This project showcases my front-end development skills and attention to responsive design principles.

Cafe Shop Website UI Design

📅 01/2025

Designed a full website for a café using Figma. Created wireframes, UI components, and responsive layouts with interactive prototypes.
